

GOATS MILK IS IN DEMAND

Garden City Man Believes Goat Raising Will Be Very Profitable.

Manhattan, Kan., April 10.—With an increased demand for goat's milk, this branch of the dairy business is certain to be a profitable one in the future. H. G. Burt, of Garden City, who is specializing in genetics at the Kansas State Agricultural college, believes the cost of producing goat's milk is low in comparison with the price for which it can be sold. Burt has found. He has a herd of twenty-three female goats at Garden City, where he has a ready sale for all the milk his goats produce.

The local physicians buy the milk at 15 cents per quart for infants afflicted with summer complaint," said Mr. Burt. "It is preferable because of its ready digestibility."

"My goats are of the Anglo-Nubian breed. A good producing female will give three or four quarts a day. The milk sells for 10 cents a quart. Figuring the feed bill for each animal at 6 cents a day and counting the caretaker's wages at ordinary rates, a herd of fifteen goats is a sound investment."

A good profit also is realized by Burt from the sale of surplus goats. On Christmas day last, one of Burt's does dropped three kids, two does and a buck. One of the does was sold for \$100. It is with the idea of developing a female producer, Burt is raising Anglo-Nubian goats that Burt is studying genetics. He keeps three goats in Manhattan with which he experiments.

The goat is a prolific animal. A generation of goats can be produced in less than a year. The young does are bred at seven months of age and the kids are dropped five months later.

ASKS \$10,000 DAMAGES

John Vandy Brings Action Against Shawnee County Commissioners.

Trial of a \$10,000 damages suit brought by John Vandy, 312 Madison street, against the board of commissioners of Shawnee county, began this morning before a jury in Judge George Whitaker's courtroom of the district court.

Mr. Vandy asked the damages for the death of his wife, Hannah Vandy, who was killed when their car overturned near Pauline the night of July 21, 1921. He charges the commissioners with negligence in allowing a pile of sand and rocks to remain in the road without a warning light, and also alleges that the sand and rocks were placed at the scene of the accident was defective.

WANTS OUT OF GUARD HOUSE

Habers Corps Proceedings Started by Henry Tipton.

Henry Tipton, of McPherson, Kan., today filed habeas corpus proceedings in the United States district court here to obtain his release from the guard house at Fort Riley, Kan., where he is being held pending transportation to the disciplinary barracks at Fort Leavenworth to serve a term on charges of evading the selective draft act.

Tipton was convicted by a general court martial at Fort Riley, March 1, 1922, after having pleaded guilty to desertion. He alleges the court martial had no jurisdiction of the case, on the ground that he never was mustered into military service. Col. John S. Winn, commandant of the cavalry school, is named as defendant in the proceedings.

SAYS IT'S THE LAST TIME

Girl Who Left Groom Waiting at Church Sails to Meet Him.

New York, April 10.—"This is the last time we're going to be married," with a laugh at the joke, a girl who left her groom waiting at the church door, sailed to meet him. Mary Louise Baker, who was engaged to marry here from Chicago today, her present determination not to leave Alister McCormick at the church again. She is on her way to Weybridge, Surrey, England, where the young millionaire of the international Harvester McCormick awaits her.

"Seriously, tho," Miss Baker went on, "Alister is the dearest, sweetest man in the world and I love him dearly. We're going to get married, that is certain."

Miss Baker arrived here in a private car attached to the Twentieth Century Limited, attended by her mother, two maids and six attendants. She was dressed in a red and black gown, which took three red caps to dispose of after Miss Baker left for the Ritz. She said with her mother and maids and all the baggage on the Cunard liner Aquitania tomorrow.

Miss Baker said the date for the wedding in England was not yet set, but undoubtedly would be as soon as she saw her fiancé. She added that there were several legal matters, the nature of which she did not disclose, still to be settled, but added that these also would be accounted for without difficulty.

JUSTICE GETS 26 MILLIONS

House Passes Appropriation Bill as Amended Without Roll Call.

Washington, April 10.—The house today afternoon, without a record vote, passed a bill appropriating approximately \$26,000,000 for conduct of the state and justice departments. It voted, 192 to 54, to retain in the bill an amendment providing that none of the money appropriated for the justice department should be used in the prosecution of any labor organizations or farmers' organizations combining to enter into agreements to fix wages.

This amendment was inserted to specifically guarantee that bond operators and miners might meet in joint conference, fix wages and end the present coal strike without fear of prosecution under anti-trust legislation.

BURGLARS ENTER PAWNSHOP.

Clothing and Jewelry Taken From Abe Jacobson's Store.

Clothing and jewelry valued at more than \$1,000 was stolen Friday night by burglars who entered Abe Jacobson's pawnshop, 160 Kansas avenue. A fair coat valued at \$400 was among the loot. Entrance was gained by prying off a basement window, it was said. No arrests have been made in connection with the case.

The Topeka Kiwanians will entertain their wives and women friends at a banquet and entertainment at the Chamber of Commerce at 8:30 o'clock this evening. The program will include music and "stunts" by Washburn college performers directed by Fred Albert Habersht.

Miss Louise Kreighbaum, matron of the rural resort at the city hall since its establishment, has resigned. She will maintain her home at 1218 S. Kansas avenue some weeks ago belongs to her, during the coming year. The committee in charge of selecting a successor has not yet made any decision as to candidates for the place.

The battered remains of the White runaway which struck a trolley pole on Kansas avenue some weeks ago, with Assistant Fire Marshal Joseph Waidelich, have been combined with the remains of a Chalmers car by the mechanics of the department. The resulting automotive hybrid is being used as a truck in the maintenance of the city streets.

The first death claim under the group insurance taken out by the Hall Lithographing company has been paid. The claim was for \$1,000, the death of Miss Eunice Stader, an employee of the store, the Hall company presented a claim for \$1,000 to the insurance company. The group insurance carried by Hall's applies to all employees of the company, with the premiums paid by the employer.

Prof. Charles E. Carpenter, dean of the school of law of Washburn college, delivered the address on Sunday evening before the open forum meeting of the Unitarian Laymen's league, his topic being, "Is the Human Race Improving?" Professor Carpenter discussed evolution as applied to the human race, and stated it as his belief that certain phases of biology, particularly eugenics, are probably the most important studies of man for the future benefit of the race.

Standardization of St. Francis hospital in accordance with the plan recommended by the American College of Surgeons will be commenced in the near future. The standardization will consist of revision of the staff organization, systematization of case records, adequate laboratory facilities, and a nurses' training school of the highest order. An executive board of local physicians has been appointed by the management of the hospital to direct the work and supervise the necessary changes.

Former Kansan Dies in Storm.

Cottonwood Falls, Kan., April 10.—Will Gannon, a former Strong City boy, was frozen to death in the big blizzard and snowstorm at Cottonwood Falls, Mo., last Thursday night, according to a message received by his mother, Mrs. John Gannon, of Strong City, this afternoon. Gannon, who was a bootmaker by trade, left Strong City a year or two ago and the first of this winter established a business of his own at Casper.

In a basement on the main street of the town is George's newspaper office and printing plant. Water plays almost as much havoc with printing stock and type cases and linotype machines as with the printing press. A millinery store and leaves its finger prints all over the new spring creations. So there was a reason for the worries of the governor's private secretary—and it wasn't exactly the affairs of state or his own candidacy for state superintendent of insurance, either.

Shortly before noon George received word that the rough old stream had dried up. It was slowly receding. It was backing away from the Council Grove store buildings and George breathed a sigh of relief. This afternoon he celebrated with a bang up game of golf at Shawnee.

GEORGE DIDN'T REST WELL

High Water in Neosho River Threatened Printing Plant of Emmett D. George—Receives Word Today That Water Is Receding.

Emmett D. George, private secretary to Governor Allen, didn't sleep well Sunday night. He dozed a bit and dreamed the telephone bell was ringing. Every time he awoke on a cat nap he jumped out of bed and looked out the window to see if rain was falling.

George, who is publisher of the Council Grove Republican, received word Sunday that the Neosho river was creeping up into his home town. The naughty old stream crept over the town's main street and threatened to reach Council Grove before it reached Council Grove.

In a basement on the main street of the town is George's newspaper office and printing plant. Water plays almost as much havoc with printing stock and type cases and linotype machines as with the printing press. A millinery store and leaves its finger prints all over the new spring creations. So there was a reason for the worries of the governor's private secretary—and it wasn't exactly the affairs of state or his own candidacy for state superintendent of insurance, either.

Shortly before noon George received word that the rough old stream had dried up. It was slowly receding. It was backing away from the Council Grove store buildings and George breathed a sigh of relief. This afternoon he celebrated with a bang up game of golf at Shawnee.

NOT MUCH CHANGE FOR SNOW

Chances for Freezing Weather in April Are Two in Thirteen.

There is only one chance in thirteen that snow will fall in Kansas during April, if government weather records are an indication. In only one year during the past thirteen has snow fallen in the state—the Easter blizzard of 1920—the records show.

Moreover, the chances for freezing weather during the month are only two in thirteen, the records indicate. The median date of the last killing spring frost is April 11. The latest killing frost recorded during the thirteen years was May 2, 1911. In the spring of 1913, no killing frosts were recorded after March 25.

The warmest April recorded on the government reports was in 1913, with a mean temperature of 62.55 degrees, an average daily maximum of 73.3 degrees, and an average daily minimum of 51.2 degrees. The coldest April was in 1915, with a mean of 55.17 degrees, an average daily maximum of 62.13 degrees and a daily minimum of 48 degrees.

The highest April temperature recorded in recent years was 82 degrees in 1913, and the lowest, 15 degrees on Easter day, 1919. The normal rainfall in April is 2.9 inches. The wettest April in the thirteen years recorded was 1913, with 5.14 inches, and the driest, 1.34 inches in 1913.

REDUCES OATS ACREAGE

Recent Rains Have Damaged Crop Prospects in Kansas.

Recent rains have caused a reduction of 10 to 15 per cent in the prospective oat acreage for Kansas. That was the outstanding statement in the weekly crop report issued today by the United States department of agriculture.

Most of the land which had been prepared for seeding of oats will be planted to corn and sorghum. Heavy rains of the last week have held back farm work in the eastern half of the state. In a number of communities damage from high water has been reported.

What conditions are reported in western counties. In many communities fields are giving prospect for fair production where a few weeks ago there was apparently little chance for a field. In other districts, too, heavy loss in acreage is indicated. Rainfall last week in most of the western counties was light.

STATE BONDS HELD TAXABLE

Direct Levy Cannot Be Made on Otherwise Exempt Securities, Tho.

Washington, April 10.—The supreme court of the United States today held that the estate tax on municipal and state bonds was valid, so long as it was not a direct tax.

The supreme court decision is expected to clarify scope of state legislative action in providing for collection of taxes from inheritances where the estate is in form of bonds free from direct tax. Under the ruling the state cannot levy a direct tax on property in the form of municipal or state bonds.

Where tax free securities are owned by an estate, the state may collect under its statutory provisions in accordance with schedules provided under its inheritance tax laws. In short, securities which are tax free so far as direct levies are concerned, cannot be protected under an exemption claim where the estate is distributed to lineal descendants under provisions of a will.

North Topeka

Items for this column may be left at Topeka drug store of telephone blower Klumball, until before 10 o'clock or after 2. Other hours 3300.

Major MacLean of the Boys' Industrial school will outline a plan for a military organization which he hopes to organize in North Topeka at the regular meeting of the North Topeka Civic club Tuesday evening. The meeting will be preceded by a bar supper at 6:30 followed by a short program.

The Rev. J. A. Wilson, pastor of the Central Avenue Christian church, held the pre-Easter service at Ingleside Sunday.

The Rev. O. L. Weir, pastor of the North Topeka Baptist church, went to Wathena today to deliver a series of five addresses at a Sunday school conference in session there.

Potato growers in this vicinity are becoming discouraged by the frequent rains which prevent preparation of the ground, and in some instances are selling their seed potatoes.

Notes and Personalities. The sum of \$12 was made by the Wesleyan Methodist church at the candy sale held at Pelletier's Saturday. The money will be added to the fund for the addition to the church which is to be built soon.

An Easter program is being prepared by the teachers' training class of the North Topeka Baptist church to be held at the Sunday school hour next Sunday.

The Central Avenue Christian Sunday school will meet at the church tonight at 7:30 o'clock for a business and social meeting.

The jubilee concert which was to have been held at the Kansas Avenue Methodist church Saturday evening was postponed on account of the heavy rain and will be given this evening. The members of the company sang this morning service Sunday.

The Ladies' Aid society of the Central Avenue Christian church will hold an all-day meeting at the church Wednesday with luncheon at noon.

The Ladies' Aid society of the North Topeka Baptist church will meet Thursday afternoon at 2:30 at the church.

The choir and orchestra of the Central Avenue Christian church will meet this evening at 8 o'clock at the church in preparation for the Easter cantata, "The Glory of the Cross," which will be given at the church Sunday evening.

Miss Pansy Antism, Miss Minnie McGrew and Miss Myrtle McGrew spent the week-end in La Cueva, N. M. the guests of Mrs. Wayne Lytle.

Miss A. Newton of Marysville, Kan., who has been at the home of her sister, Mrs. S. B. Dexter, 344 Quincy street, has returned home. Mrs. Dexter, who has been seriously sick, is much improved.

"Uncle Ben" Goodman has sold his confectionery store at 302 Kansas avenue to James Shockey. Mr. Goodman will be with his daughter-in-law, Mrs. Amos Goodman, for three months and then go to Pennsylvania.

It was he will visit relatives for several months. He will then go to Decatur, Ill. where he will make his home with his son, Frank Goodman.

"Uncle Ben" is one of the old timers in North Topeka and has many friends who will be sorry to hear of his departure.

The Joy class of the Second Presbyterian Sunday school will hold its regular meeting this evening at 8 o'clock at the church.

Those Pretty Teeth

How careful people get them

Careful people—millions of them—are brushing their teeth in a new way. They do it almost the world over, and largely by dental advice. Whiter teeth is one result. You see them everywhere. Now we urge you to try the method which they use. Ask us for a ten-day test.

Just remove the film

It is film that makes teeth dingy. That viscous coat clings to the teeth, enters crevices and stays. The tooth brush used in old ways has left much of it.

Film is what discolors, not the teeth. Film is the basis of tartar. Most people's teeth are kept clouded by it, more or less.

Film also holds food substance which ferments and forms acids. It holds the acids in contact with the teeth to cause decay. It breeds millions of germs, and they, with tartar, are the chief cause of pyorrhea.

All these troubles have been constantly increasing. And most of them are traced to film which old-way brushing left on teeth.

What must be done

Dental science, after long research, has found two film combatants. Able authorities have proved their efficiency. Now leading dentists, here and abroad, are urging their daily use.

A new-type dentifrice has been created, called Pepsodent. It combats film in modern requirements. And these film-fighting methods are embodied in it. Every use attacks the film in two effective ways.

Aids Nature too

Gummy starch deposits also cling to teeth, and often ferment and form acids. To digest them, Nature puts a starch digestant in the saliva. Every use of Pepsodent multiplies that "starch digestant." Nature puts alkalis in the saliva to neutralize mouth acids. Each use of Pepsodent multiplies those alkalis.

Thus Pepsodent twice daily brings five desired effects. It has brought to millions, as it will to you, a new conception of clean teeth.

Send the coupon for a 10-Day Tube and watch the delightful effects. Note how clean the teeth feel after using. Mark the absence of the viscous film. See how teeth whiten as the film-coats disappear.

See the new beauty, feel the new cleanliness. Then judge for yourself how such results mean to you and yours. This is too important to forget. Cut out the coupon now.

Let's put away the hammer and get out the horn and blow about ourselves. Now altogether—boost.

The Executive Committee Representing The Business Interests of Topeka

Mail 10-Day Tube of Pepsodent to

Only one tube to a family.

THE NEW-DAY DENTIFRICE

A scientific film combatant, combined with two other modern requisites. Now advised for daily use by leading dentists everywhere. Supplied by druggists in large tubes.

HARGER IN A WARNING

Ablene Publisher Sees Politics in Court-Comments Judge Huggins.

Charles L. Harger, publisher of the Ablene Reflector and one of the most widely known editors in the state, declares the industrial court will be destroyed if it does not remove suspensions that it is playing politics. Harger commends W. L. Huggins, presiding judge of the court, for dissenting in the recent coal strike order. He asserts that action of the court in writing an opinion before the evidence was submitted has not strengthened the court with the public.

"The industrial court cannot be a success if it is run by cliques and politics," Harger declares. "The Ablene editor's displeasure over conditions of the labor court situation is not concerned in the least. In an editorial in his paper Harger says:

"That is a queer story that comes from Topeka that in such a crisis as this the industrial court order was made up by two members of the court and the presiding judge did not see it until it was presented to him to sign on the dotted line before. Like a good sport he stood by the order's legality, but like a man with a conscience that cannot be bullied he filed his own dissenting opinion. In view of the fact that the order to the Kansas miners is being absolutely ignored, it would seem that it might have been better to have allowed the whole court to consider it before making it."

"The industrial court cannot be a success if it is run by cliques or by politics," Judge Huggins, because out of favor, seems to be about as much out of it as a boy bound at a husking. The industrial court will never

SEARCH FOR PASTOR IS AT END. Body Believed To Be the Rev. Henry F. Reynolds, of Detroit, Found.

Bay City, Mich., April 10.—A body believed to be that of the Rev. Henry F. Reynolds, Detroit pastor who vanished while on his way to church November 12, was found today in Saginaw river here. A handkerchief and a buckle on the body bore Mr. Reynolds' initials. The description tallies closely, police say, with that of the missing pastor.

A nation-wide search was carried on for months following Mr. Reynolds' disappearance. He was a war veteran in World War I, and a member of the American Legion, which made his disappearance a matter of much interest.

ENGINEERS' CLUB TO MEET. The members of the Topeka Engineers' club will meet tonight at 7:30 o'clock at the Elks' club. Harland Bartholomew, who is in charge of the Topeka city plan, will be the chief speaker. All persons who are interested in city planning are invited to the meeting tonight.

PLAN INDUSTRIAL MEETING

Sixth Annual Convention Will Be Held in Wichita April 19.

The sixth annual convention of the Associated Industries of Kansas, to be held in Wichita, April 19, probably will be more in the form of an open forum, rather than a set program with assigned speakers, if a proposal recently put forward by the members is approved and carried out.

"It will be an entirely new departure from our usual custom," said Harry Sharpe of Topeka, secretary. "In case the open forum is adopted, but in all probability a lot of the members will have something interesting to discuss and if the program were occupied by formal speeches, a good many probably wouldn't get an opportunity to do any talking."

To date but three set addresses have been put on the program. Mr. Sharpe said. The speakers are A. F. Williams, United States district attorney for Kansas; John P. Dean of Topeka, counsel of the association, and J. C. Mohler, secretary of the association.

Some time ago the executive committee of the association at a meeting here decided that the association would maintain a neutral attitude towards the industrial court during the coming political campaign and from this it is assumed, members say, that the association will take no action on the court, pro or con—at the Wichita convention. The association has a membership of about 600 employers and formerly was known as the Employers' Association of Kansas.
